MARKING CRITERIA FOR THE PROJECT (CoRIC) 2019

Introduction:

Community Research and Innovation Competition (CoRIC) will be held for the 8th time as a sub-event of NRIC 2019. For the first time in 8 years time, this competition will be open to all communities in Malaysia (school and university students, educator, local community etc.). This category aims to educate and train the students on how to commercialize their ideas in the field of research. Therefore, the participants will have to convince the evaluators that their ideas can be commercialized

Concept:

This year the main concept of CoRIC is 'The Power of Idea: 17 Goals for Communities'. Adopted by the UN General Assembly in 2015, the Sustainable Development Goals (SDGs) aim unite global action to overcome the world's biggest challenges, from hunger and poverty to equality and peace. Hence, the participants' presentation should be through *verbal explanation*. Any props are **not allowed**. The presentation must include :

1. What are the problems that lead to this idea?
2. How would you solve the problems/issues/conflicts?
3. Can your idea be commercialized?
4. What are the contribution of your idea to the community?
5. The sustainable impact of your product in relation to the Sustainable Development Goals (economy, industry, life quality, and so on)

SUSTAINABLE DEVELOPMENT GOALS (SDGs)
